

'23-24
SKIBOOT COLLECTION

We are Roxa Ski Boots.

A family owned company located in Asolo (Italy), the home of ski boot manufacturing. Attentively focusing on innovation and elevating technology.

In the early 2000s, the decisive step, the first Roxa branded model took shape with **the mission to give everyone the best possible fit.**

Roxa concentrated research and investments in 3D design, in advanced materials, in the injection of ultralight compounds.

Roxa was one of the first ski boot companies to use CAD Design software to design and 3D print prototypes.

Design and new technologies, use of the most innovative materials. Quality, performance, reliability, production still today **Made in Italy**, are the strengths of the brand.

UNIQUE TECH

Roxa is well known as an innovator.

We hold several patents and are constantly shaking up the status-quo of ski boot design.

NEXT GEN DESIGN

Utilizing state of the art **CAD design** technology, **3D printed prototyping**, and cutting edge polymers, Roxa's revolutionary "Next Generation", Cabrio R3 and R/Fit technology provides skiers with the **lightest collection of alpine ski boots ever offered.**

Integrated Tech inserts

Roxa owns the **patent for fully integrated tech inserts**, combined with **interchangeable soles.**

Roxa models with tech inserts fitted with GripWalk soles can also accept Vibram® touring norm soles or flat alpine soles for unlimited use and versatility with no compromise in performance.

MATERIALS

Roxa only uses state of the art polymers such as **Grilamid®** and **Desmopan 900®** for the majority of the range. These polymers are the **finest materials available in ski boot design** in terms of performance, weight, durability and being least effected by cold temperatures.

Grilamid®

Best in Class technical polymers. Grilamid is Ultra-lightweight, durable and almost unaffected by cold temperature.

DESMOPAN 900®

Engineering grade polyurethane (**PU+**) designed specifically for cold weather application, excellent molding properties.

3 PIECE CABRIO

FEEL THE INNOVATION

This unique technology combines a **3 piece construction: Shell, Cuff and Tongue.**

1. Shell

2. Cuff

3. Tongue

Benefit

**PROGRESSIVE FLEX
QUICK REBOUND
VERSATILITY**

Roxa's cabrio models offer **hike cuff and fixed cuff** variations, comfortably secures the foot and lower leg while **optimizing smooth and progressive flexibility.**

Cabrio key features

HIGH SHELL WALLS

Tenacious lateral power and control without making the boot overly stiff forward.

POLYAMID TONGUE

Delivers smooth forward flex with quick rebound. Maintains contact with the skier's leg throughout the turn and provides excellent shock absorption.

OPEN THROAT SHELL

Accommodates a high range of hike function without compromising performance. Allows easy entry and exit.

2 PIECE OVERLAP

REIMAGINE THE TRADITION

Next Gen 2-piece design reimagines the traditional architecture, composed by **Shell and Cuff.**

1. Shell

2. Cuff

Benefit

**POWER AND PRECISION
COMFORTABLE FIT
LIGHTWEIGHT**

The R/Fit Pro and R/Fit series offers skiers of all abilities and foot shapes the absolute state-of-the-art.

Overlap key features

NEXT GEN STRUCTURE

3D CAD engineered **ultralight** while maintaining **incredible structural strength.**

DIRECT TRANSMISSION

The modern stance geometry and flex pattern provide **power, control and excellent edge hold.**

EASY ENTRY

Soft polyurethane panel insert at the instep allows for smooth, easy entry and exit.

BIOFIT SYSTEM

WHAT IS BIOFIT

Anatomic last shaping with pre-molded relief in the most common fit "issue" areas:

- Navicular
- Ankle bones
- 1st Metatarsal
- 6th Toe

BIOFIT LAST WIDTHS

Close Fit 99-101 mm BioFit

Close fitting, anatomic fit for discerning high performance skiers.

Used in:
R3 Element Trinity

Precise Fit 100-102 mm BioFit

Anatomic 100 mm last with a tapered fit in the mid and forefoot area.

Used in:
R/Fit Pro

Relaxed Fit 102-104 mm BioFit

Anatomic 102-104 mm last with an emphasis on a user-friendly fit in the mid and forefoot area.

Used in:
R/Fit R/Fit Hike

BIOFIT CM (Custom moldable)

Fast, easy process allows for heat customization in minutes using a typical boot oven.

All BioFit shells (Grilamid and PU+) can be molded by qualified bootfitters.

LINERS

FIT IS KING

Whether it is working with Intuition®, the worldwide leader in after-market liners, or with our own proprietary liners, Roxa spares no effort to provide the best fit in the industry.

I.R. = Intuition / Roxa®

Custom produced by Intuition® specifically for Roxa, 100% Heat moldable, ultra-comfortable and lasting fit. Light weight and cozy warm.

I.R. Tongue Freeride

Light, easy to fit and provide outstanding skiing as well as striding.

I.R. Wrap Freeski

Outstanding custom fit combined with shock absorption and warmth.

I.R. Pro Tongue High performance

Provides outstanding foothold and 100% customized comfort.

Roxa Ultraloon

Premium quality liners featuring Ultraloon EVA Foam. The most sought after EVA used in ski boots. It offers the best molding qualities along with a lasting fit. Ultraloon is also very light and warm.

Ultra -Thin active insulation Technology in all of our Biofit 4D & U75 R/Fit liners. 50% increase warmth, reflective aluminum membrane climate control, breathable and anti-bacterial.

BioFit 4D All-mountain High performance

Pre- molded 3D insert combined with Ultraloon EVA Foam.

Now with Win-Therm insulation technology

U75 Freeski, Freeride, All-mountain

Utilize Ultraloon in 75% of the liner (heel pocket and tongue)

Now with Win-Therm insulation technology

U50 Freeski, Freeride, All-mountain

Utilize Ultraloon in 50% of the liner (heel pocket)

LEGEND TECH ICONS

I.R. (INTUITION/ROXA) LINERS
 -Superior warmth comfort and durability
 -High performance, ultralight
 -Low pressure, full-contact fit
 -100% heat-moldable

ULTRALON FOAM
 Ultralon developed a high quality foam renowned for its superior thermoforming ability, high level of insulation and excellent durability.

GRILAMID INJECTION
 Grilamid is the state of the art in technical polymers. Lightweight, durable and unaffected by cold temperatures.

WIN THERM
 Ultra-Thin insulation Technology in all of our Biofit 4D and U75 R/ Fit liners. 50% Increase warmth, reflective aluminum membrane climate control, breathable, anti-bacterial.

DYNAFIT BINDING / KINGPIN BINDING
 RX is certified for Dynafit and Marker Kingpin inserts personalizations and all tech insert equipped R3 models.

GRIP WALK
 High-profiled slip-resistant sole. Increases walking comfort and improves natural roll thanks to curved rubber sole.

HEEL LOCK BUCKLE
 Independently functioning instep buckle is positioned at a 45° angle securing the heel during all phases of skiing and hiking.

OPTI LOCK INSTEP BUCKLE
 Two position buckle location allows for perfect instep fit and foot hold.

INVERTED TOE BUCKLE
 Protects buckle lever from damage while skiing in park or rough terrain situations.

NEXT GEN CABRIO
 Use of advanced CAD Design technology, 3D Printed prototyping, and cutting edge ultralight polymers achieves minimal form with outstanding strength-to-weight ratio.

NEXT GEN OVERLAP
 New 2-piece ultralight overlap design provides power and precision. Use of advanced CAD Design technology, 3D Printed prototyping, power the evolution of the traditional "overlap" ski boot.

EASY STRIDE POWER STRAP BUCKLE
 Powerstrap allows for excellent boot top closure as well as accommodating any leg shape. Easy stride buckle function extends stride range when opened in the walk phase.

EASY SKI-HIKE LOCK
 The ski-hike cuff lock allows for easy striding when open and uncompromising performance when locked.

ERGONOMIC BUCKLE CABLE SYSTEM
 System adapts to the shape of the shell for perfect fit and minimal bulk or weight.

WOMEN'S SPECIFIC CUFF
 Women's specific upper cuff provides reduced height and "scalloped" shape to comfortably accommodate women's calve shapes.

D.R.I. CHASSIS TUNING
 The Dynamic Response Insert shortens range of flex while still providing excellent shock absorption. Lightening quick response and power for outstanding all mountain performance.

C.A.C. ADJ CUFF
 Calf Adapt Cuff easily adjust to increase boot top circumference by 1.5 cm.

ADJUSTABLE FLEX
 The setting of "hard and soft" allows the skier to adjust the flex of the boot.

BIOFIT LAST
 Anatomic fit last with pre-formed relief in the most common fit "issue" areas - ankle, navicular, 1st metatarsal, 6th toe.

BIOFIT CM
 Offer the ability for a qualified ski shop bootfitter to mold the shell.

EASY ENTRY SYSTEM
 Soft polyurethane panel insert at the instep allows for smooth, easy entry and exit.

ROXA TEAM

Glen Plake

Maxime Chabloz

Matthias Giraud

The Roxa team is one of the most important pieces of the company's engine. In addition to being some of the world's most recognizable skiers, they also provide feedback, testing, and inspiration for the development of new products.

AND...:

Cody Wilder Ray
 Dean Bercovitch
 Ian Hamilton

Lupe Hagearty
 Samuel Alander
 Michael 'Bird' Shaffer

HOW THE WORLD SEES US

Roxa's products and skiers are setting new standards and climbing to new heights every season. Whether it is magazine test awards, top competition results or conquering the most challenging terrain in the world, Roxa is leading the charge.

TOURING

3 PIECE CABRIO DESIGN

Pure touring. Lightweight.

Minimalist design yet powerful enough to drive big skis in any conditions.

HEAT MOLDABLE LINER

RX series liners are heat moldable, warm and extremely light weight.

EASY SKI-HIKE MODE

Light weight yet strong ski/hike cuff lock mechanism.

LOCK BUCKLE

The construction keeps the buckle locked in the open position while hiking.

TECH BINDING

Certified for Dynafit insert and all tech bindings.

FREERIDE

NEXT GEN 3 PIECE CABRIO DESIGN

The lightest high performance alpine ski boot series ever offered!

Sleek, "Next Generation" Cabrio architecture designed for skiers to tackle any terrain in any conditions.

NEW ROXA TECHNOLOGY POLYAMID DUAL-TONGUE

Innovative two-piece, hinged, split tongue design. Increases stride range (52° ROM) while still providing outstanding downhill performance.

ADJUSTABLE FLEX

Primary flex mode is "Soft" mode. Aggressive or heavy skier use "Hard".

HIKE MECHANISM

Light weight yet strong ski/hike cuff lock mechanism.

EASY STRIDE BUCKLE

Powerful, lightweight and easy top closure. Easy slide buckle function extends stride range when opened.

HEEL LOCK BUCKLE

45° angle provides to most secure heel hold possible. Independent cable/buckle assembly constantly holds throughout flex range.

ALL MOUNTAIN ADVENTURE

NEXT GEN 2 PIECE OVERLAP DESIGN

The lightest series of sport performance all mountain ski boots ever offered.

CALF ADAPT CUFF (C.A.C.)

Easily adjust an additional 1.5 cm of cuff expansion to accommodate large calf sizes.

EASY SKI HIKE CUFF

Stout hike mechanism allows easy release of the upper cuff for striding to access terrain, walk to the lodge or enjoy your après.

102-104 BIOFIT LAST

Anatomic 102-104 mm last provides pre-molded relief in the most common fit "issue" areas. BioFit CM can be heat molded in a conventional "Boot Oven" to gain additional volume.

PU + (DESMOPAN 900)

Polymer provides outstanding structural strength with ultralight weight. PU+ also provides excellent heat molding capability.

EASY ENTRY

Soft polyurethane panel insert at the instep allows for smooth, easy entry and exit.

**CHAMELEON
ADJUSTABLE SYSTEM**

**ADJUSTABLE
LINER**

Innovative AND PATENTED, Roxa's Chameleon junior boots are designed to allow easy adjustment of the boot shell length to accommodate 4 sizes with one boot. (2 models cover 8 sizes)

Simply remove the 2 axle bolts and slide the telescoping shell to the desired size.

Replace the axles and you are done!

The Chameleon liner has an elastic neoprene toe box that easily accommodates 4 sizes while also being warm and cozy.

RENTAL

ROXA RTL FEATURES

Rental specific features to enhance guest experience and rental shop efficiency.

BAR CODE

Roxa products intended for rental provide a barcode and sizing information to assist in identification.

SANITIZED LINER

The boot is made with comfortable materials and underwent an antibacterial treatment.

ADJ. CUFF BUCKLES

Fast and easy macro adjust cuff buckle racks save times and allow easy fitting of any lower leg shape.

PU+ SHELL

Every Roxa rental boot specifically have a poliurethan shell, that provide outstanding performance and durability.

AFTERMARKET ACCESSORIES

SOLES

All Roxa R3 and R/Fit models have interchangeable soles.

VIBRAM® SOLE

Vibram® rubber AT Norm soles provide superior traction and durability.

Available in:

All R3 and R3 W T1 models
(AT binding compatible only)

ALPINE SOLE

Classic "DIN" alpine replacement soles.

Compatible with:

R3 Element Trinity
R/Fit Pro R/Fit

GRIPWALK® SOLE

Bi-Injected rockered soles make walking easy without compromising binding performance (GripWalk bindings)

Compatible with:

R3 Element Trinity
R/Fit Pro R/Fit

GRIPWALK® JUNIOR

GripWalk soles developed for junior ski boot dimensions (up to size 21.5)

Compatible with:

Lazer, Bliss, Raven 1 e 2

TONGUES

DUAL TONGUE

2-Piece hinged dual-tongue.

Available in 3 stiffness's (A, B, C) only as aftermarket.

Compatible with:

R3 Element Trinity

R3 TONGUE

One piece nylon tongue available only in black.

Available in 4 stiffness's (A, B, C, D) only as aftermarket.

Compatible with:

R3 Element Trinity

SPOILERS

R/FIT - R/FIT PRO SPOILER

Velcro attachable spoiler designed to increase forward lean (2°).

Compatible with:

R/Fit R/Fit Pro
